Mini Music is a fun, interactive program for children with special needs and their parent/caregiver. Music can have power and meaning beyond words and supports children's early learning. Join us for music and movement activities including traditional rhymes, songs, musical stories while also exploring instruments and musical props. Come share the special language of music through a variety of media and gain ideas to enhance music in the home. \*Stay for an extra half an hour after the program and enjoy some free play activities. *This is a play based program with supportive TVCC therapists and Family Centre Westmount facilitators.*
