Boomwhackers and bells combine for a fun, melodic experience in this series of summer music lessons led by an experienced music educator. With support from TVCC staff and volunteers you will participate in pitch, melody and rhythmic activities featuring Boomwhackers (tuned percussion tubes) and hand bells that everyone can play! Other percussion instruments, such as hand drums, and singing will be integrated into the class. Discover techniques that will work for you and experience the joy of making music. **This program will be best suited for participants with an interest in music, ability to follow instructions by a group leader and participate safely in a group setting.**
