## Description

"Parents Talking Across the Spectrum" is an interactive, supportive and fun group for parents and caregivers of children and youth with autism.

You will have the chance to share stories and strategies with other parents, ask questions and connect with people who may have had similar experiences.

Discuss strategies that have worked in the past, and get ideas from others on what might help in the future. Each discussion is facilitated by a Family & Community Consultant from Autism & Behavioural Services, with the parent group guiding the content and future topics.

Sign up at any time! You can join any or all dates throughout the program.
