Location: Zoom online platform

Cost: None

Description

A webinar for parents/caregivers and community and therapists supporting children/youth with special needs who have started or are considering starting toilet training. This workshop is also for those who are experiencing challenges with any part of toilet training.

Join us to better understand the many parts of toilet training and for help deciding if your child is ready for this step.

The presenter will discuss common toileting challenges, offer practical solutions and share resources.

As a group, participants will have a chance to ask their own questions as well.

If you cannot register online, please contact Carrie at register@tvcc.on.ca or 519-953-5445.
