PA Day Splash is an un-structured program for school-age children with special needs and their siblings offered in TVCC's therapeutic pool. A Recreation Therapist will be available to explore individual family goals that support ongoing swim participation at home and in your community if needed. The following areas may be explored: strategies for safe participation, pool entry and exit, floatation and specialized equipment and community resources. Please note, a parent/caregiver **must** accompany their child in the water. Registration is required and spaces are limited.
