Fitzgerald Key Colour Coding

Colour coding is used to learn word categories, to aid in locating specific symbols/words and to facilitate the development of grammar. As new symbols/words are added they should be consistent with the existing organization. This will make learning and using new vocabulary easier. Symbols/words should be presented in the standard organization and colour coding as follows:

SOCIAL (polite, apologetic, polite words)	**PINK/PURPLE**	Can I play?
PEOPLE (including personal pronouns)	**YELLOW**	mother
VERBS (action words)	**GREEN**	go
DESCRIPTIVE (adjectives, adverbs)	**BLUE**	cold
NOUNS (places, things)	**ORANGE**	school
MISCELLANEOUS (articles, conjunctions, prepositions, time, colours, alphabet, numbers)	**BLACK**	today
