Description

The iCan Bike program (www.icanshine.com) is designed to help children/youth with special needs achieve an important life milestone of learning to ride a two-wheeled bike.

The iCan Bike program is an intensive skill-development program that focuses on learning to balance on a bike with the goal of riding a two-wheeler independently. The program uses unique adapted bicycles and transitions participants to their own bike during the week.

If you have any questions about the program contact the team at icanbike@tvcc.on.ca.

If you cannot register online, please contact Carrie at register@tvcc.on.ca or 519-953-5445.
