

Do you work or play with children or youth who have autism

Are you?

Swim instructor, camp counsellor, child care worker, sports coach, youth leader, child protection worker developmental service worker.

Interested in improving your interaction with individuals with ASD?

Evidence-based behavioural approaches can increase desired behaviours, teach new skills, maintain and transfer skills, and reduce undesired behaviours. Using a behavioural approach in your interaction with children can enhance their learning and participation in positive ways.

What?

TVCC offers workshops and presentations for community members and professionals to learn skills to help children/youth they work with. The presentation “What is Applied Behaviour Analysis (ABA)?” is a good place to start.

Where?

Bruce, Chatham-Kent, Elgin, Essex, Grey, Huron, Lambton, Middlesex, Oxford and Perth counties.

How to Register

Find current workshop offerings at [TVCC Workshops](http://tvcc.on.ca/content?type_1=workshops) (tvcc.on.ca/content?type_1=workshops)

Training can be customized for your organization for free
