Does your child love watching videos? Each week, kids will watch fun videos that focus on building new skills, like social etiquette and talking with friends. They will practice those skills with the help of peers and therapists. Your child will learn how to use these skills outside of this group. You do not need to stay with your child for this group.

Your child will receive an individual treatment plan that will identify his/her goals for the group as well as the strategies that therapists will use to help achieve those goals. Your child’s progress will be tracked and you will receive a progress report at the end of the group. This group is supervised by a Behaviour Clinician who is a Board Certified Behavior Analyst®.
