## Description

Welcome to "Keeping Runners Safe – Safety and Autism", an interactive presentation in partnership with Autism Ontario the Windsor Essex Chapter and Autism & Behavioural Services.

This virtual presentation is designed for parents and caregivers who would like to identify risks, prepare for those risks and make a plan to teach.

The presentation relates to children and youth with autism, of all ages and abilities, but does focus on high risk individuals and situations. We will provide a checklist that will help you start to assess potential risks and we will identify where to go to get a safety plan specific to your child.

The presentation will help you apply the information learned to your specific situation and find ways to easily fit teaching and practice into your family routines.
